#### OBJECTIVES

At the conclusion of this program, participants should be able to:

- Summarize the clinical manifestations and course of movement disorders induced by antipsychotic drugs
- Compare the relative risks of movement disorders between different antipsychotic drugs
- Formulate a rational management strategy for patients with tardive dyskinesia
- Appraise the prevalence of metabolic issues in psychiatric patients and the association of these comorbidities with worse clinical outcomes
- Choose monitoring guidelines for metabolic concerns in psychiatric patients
- Evaluate an approach to implement metabolic syndrome monitoring in psychiatric patients at an academic medical center
- Summarize the dynamic of violence
- Determine the risk factors that predict violence
- Summarize the principle of affect management
- Recommend 5 situations commonly involved in psychiatric malpractice suits
- Recommend 5 strategies for clinicians to reduce malpractice risk

#### ACCREDITATION

This activity has been planned and implemented in accordance with essential areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the Pennsylvania Medical Society and the Pennsylvania Psychiatric Society. The Pennsylvania Medical Society is accredited by the ACCME to provide continuing medical education for physicians.

The Pennsylvania Medical Society designates this live activity for a maximum of 6.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Faculty and all others who have the ability to control the content of continuing medical education activities sponsored by Pennsylvania Medical Society are expected to disclose to the audience whether they do or do not have any real or apparent conflict(s) of interest or other relationships related to the content of their presentation(s).

As determined by the program committee, 6.0 AMA PRA Category 1 Credits of this program may qualify for patient safety/risk management licensure requirements.
