Join us for a panelist dialogue between community and campus mental health care providers about current processes, barriers, and solutions to providing better care for students transitioning into the local college setting. How can we as a community help these students from falling through the cracks?

Learning Objectives

At the conclusion of this program, the participant should be able to:

- Identify college mental health resources available in the local community.
- Develop solutions to barriers of continuity of mental health care for college students.
- Identify mental health treatment needed for college students as they enter and leave college treatment settings. Implement steps to ensure proper continuity of mental health care for college students.

Target Audience

Pittsburgh area psychiatrists and psychiatric residents as well as general practitioners who make patient referrals to mental health care professionals.

Cancellations

If you are unable to attend after confirming a reservation, please cancel by Thursday, February 16, 2012 or you may be invoiced \$25 to cover expenses incurred.
