SELECT THE TIME THAT WORKS BEST FOR YOU!

PRMS Psych-cess is a virtual event geared towards residents, fellows, and early career psychiatrists, led by experts in the field to set you up for success. Addressing subjects not often formally discussed during residency training, Risk Management 101 combines PRMS' 30+ years of experience managing psychiatric risk with relevant topics and timely issues – like telepsychiatry, psychopharmacology, social media, and more! – to help attendees proactively manage their own risks. Plus, submit your questions to be answered live during the virtual Q&A session after the presentation!
